

The Permeating Color White
Of High Regard

David W. Olsen

Of High Regard
The Permeating Color White

To my wife Maggie

I write these two stories for anyone who believes our Heavenly Father has a “high regard” for each one of us.

I believe God can speak to us through visions according to His will for each of us.

I believe our Father in Heaven has His will and a plan for everyone of us.

In order to help children understand this story I write this book with me writing only one or more paragraph on each page. After all, are not even adults all of God's children?

The Permeating Color White

Upon one winter night, I woke up from a long sleep and the room I was in was dark. I then looked out a big window in the room and I saw beautiful lights of all colors. The colored things I saw were pink lights and I could tell it was the Edwards movie theater building. I also remember seeing a most beautiful colored light I had just saw before I woke up. But it was great to be awake and I quickly looked around the room and over my body. And the room was dark and I knew where I was.

It was in the middle of the night, I was laying in a bed and a large machine was next to me. Plus, there were a couple of tubes coming out of my body – particularly, my arm and chest. After I looked around I immediately knew I was in the hospital.

My wife Maggie came to the hospital in the morning and I found out I had been in a deep asleep for five days. Doctors call this kind of sleep a coma and some people die who have been through it. However, I deeply felt and believed I had been in the most calm sleep for five thousand years. My doctor came into my hospital room later that morning and told me I had diabetes, which made me be in the coma. It is a serious illness I knew I was going deal with the rest of my life.

But I had just seen a beautiful dream, the most calming and peaceful dream I had ever had, and the dream I had is also called a vision. So let me tell you the story about my long marvelous vision which lasted to what I thought for almost forever.

The Lord told the Prophet Joseph Smith one day of our time is a thousand years of His time.

The story begins on a Christmas long ago...

On that Christmas morning, I was very sick and my body were hurting a lot, thus, my Heavenly Father put me into the deep sleep, which I have already told you about. When I was asleep in the coma I was no longer sick and my body did not hurt at all.

The dream was calming and I was not sick anymore, and I could not feel any pain whatsoever. My wife Maggie told me when I woke up my body I had been very restless and I was moving all around the hospital room a lot. However, as I have said, I did not feel any restlessness, but I felt so relaxed. I also did not have bad thoughts or desires, which were part of a sickness I had for many years of my life.

Every moment of the vision my spirit was relaxed and this strong feeling lasted forever. I did not want to wake up from the dream; therefore, I had faith God knew what he was doing and I had the freedom to follow His will. However, my will at the time was I wanted to stay in whatever place my spirit was because I was having great joy.

A sacred spirit is inside a persons body.

A special spirit was inside of me which was so bright, healing, and it comforted me. For five thousand of years, my spirit could see and feel a light. My belief was beyond faith in God because I could see the His light and it felt so good.

Everything around me in the dream was white – the most glistening white I had ever seen or felt. My spirit and mind were at so much of ease because of the light that surrounded me.

So within the white light, I saw a very tall and beautiful white and golden gate. The gold shined with the same brightness which all of the white around me was shining. However, I saw Jesus and he told me the gate was closed and I could not enter. I knew my wife Jaylene, my son Michael, and my other loved ones were on the other side of the marvelous gate and I yearned to see and be with them.

I could see my spirit was also a shiny white and then Jesus appeared to me in the vision. When I saw my Savior He glistened as the purest white, The dream was like a beautiful blanket of snow that was all around me, which appeared to me to never end. What was most important is my spirit's eyes viewed the purest white, the Lamb of God Himself. I wanted to stay with Him and have His comforting light, which healed my illnesses that had wounded my soul – especially, my mind and spirit.

Another special event happened during the coma was when my wife Jaylene and our son Michael appeared to me in the dream. Michael did not say anything to me, but he had that wonderful smile he nearly always showed during his time on earth. However, Jaylene told me it was not time for me to be with them on the other side, which is called the spirit world.

I know someday I will die and pass from this earth life into the spirit world, plus I will hug and be with my loved ones. Someday I will knell at Jesus' feet and then I will give him my most heart felt love. I have much work to do when I think Mike is going to be in heaven with our Heavenly Father and Jesus. However, I have always worked at being obedient and faithful to the principles of the gospel and I seek my Jesus in this life and to come closer to Him.

But after I was awake and not in the deep sleep, I pondered about my dream and about my Jesus and He is the Lamb of God. I knew a lamb has fleece as white as snow and I easily related that to Jesus the Christ because I had seen Him in His glistening white robe. Another thing I know is I will always have diabetes in this life until God has me pass through the white and golden gate.

John 1:29

Of High Regard

It is wonderful the love your Heavenly Father and Jesus have for each one of us.
Both of them live in a beautiful place called heaven.

Your Heavenly Father and Jesus have bodies like yours. Our Heavenly Father sent you to live on this earth and to live through times of happiness and sometimes difficult trials sadness. For example, the Lord tests your endurance everyday by lovingly watching over you like he did His disciples when He was in this life and went up into the mountain to pray.

Jesus saved them from their ship from not sinking when they were caught in a great storm. This is when he walked on the water and came to them into the ship
He also humbly chooses to come to you when you are enduring a serious illness such as diabetes as I mentioned or any other illness or trial.

John 6:15-21

During our earth life, there are times when you are happy. For example, I feel happiness when I am with my wife, children, and grandchildren.

Your Heavenly Father helps make you happy because he loves you and He blesses you through times of happiness and sadness.

He is your loving Heavenly Father and His love for you cannot be measured by you.

You Father in Heaven has unmeasurable thoughts in His heart “of high regard” for you now and forever. He has this deep respect for you whether you are you have trials which bring you sadness or when you have moments and experiences of happiness.
